Individualized and creative counseling is what makes it possible for us to achieve the results our clients need. Taking time to understand the subtleties and circumstances that need to be addressed within the framework of the law means we can find unique ways to represent you.

As a trial law firm founded in 1985, we have accumulated extensive experience and expertise within the legal system in Southwest Ohio. In addition to outstanding representation for individuals, we also work with small business entities and business owners on a variety of business matters.

Our firm has represented thousands of clients. We pride ourselves on providing personal and professional assistance throughout our representation. We have established four offices to better serve your needs. Our growth is the result of hard work and the confidence expressed in our firm by you.

Bankruptcy

Being overwhelmed by debt can make it impossible to realize peace of mind. Depending on the specifics of your situation, a debt consolidation or bankruptcy might be the best solution. The time to ask questions is before you make any lasting decisions. Give yourself a fresh start.

Personal Injury

Wrongful death, medical malpractice and serious injuries are just a few of the devastating life events that can result from negligence on the part of a person or company. Navigating the intricacies of establishing legal responsibility and recovering adequate compensation require experience to achieve a successful outcome.

Estate Planning and Probate

All of the things you worked hard to achieve in your lifetime should continue to have value and significance after you are gone. Planning what happens to those assets is the only way to ensure that your family, friends and charitable institutions will receive the support and benefits you want for them.

Real Estate

Facing a possible foreclosure is devastating and financially complicated, but it doesn't have to be a foregone conclusion. With the right guidance and assistance, a foreclosure might be stopped.
